

Return of the Dinosaurs

Week 1 — June 17-21

Week 2 — June 24-28

Can you imagine a real dinosaur? Is it really possible to learn what they looked like, where and how they lived? Whether you're digging for dino fossils, or getting up close and personal with animals in nature, it's sure to be a summer you won't forget. Want to learn the names of all the different dinosaurs, where they lived, what they ate and how big they really were? You will go on a dig, discover fossils, make dinosaur skin, and many more fun things, and really learn what it was like to live during the dinosaur age.

Latin Cooking and Flavors

Week 1 — July 1-5

(no camp 7/4)

Week 2 — July 8-12

Are you always "helping" in the kitchen, asking to bake "galletas" or "pastel?" Do you wonder how to cook? Now is the time to have the most fun with cooking this

summer! We'll learn about many foods and ingredients from different parts in Latin America, will explore how some ingredients interact with each other, and will get to make some fun and easy to remember recipes! This will be a week that you will not forget!

Bugs, Bugs, and more Bugs!

Week 1 — July 15-19

Week 2 — July 22-26

We will get up close and personal with our friends the insects, some creepy ones but others even beautiful. We will learn about butterflies, termites, ladybugs, earthworms and more! We will take daily surveys of the park to find and observe bugs in their natural environment and learn basic concepts including life cycles and pollination. We invite you to get an up-close look at a bug's life! Build a bug house, make insect snacks, and find out how creepy crawlers eat, sleep, and play!

Inventors, Creators, and Builders

July 29-August 2

Calling all inventors, creators, and builders! Come and build some fabulous creations at our camp. We will make (create) our own designs and structures using recyclable materials, objects found in nature and at home, and we'll turn them into unique and original pieces. From artifacts to vehicles to toys, you will have the opportunity to let your imagination fly! During this collaborative week of building, you will be able to explore, invent, create, and build without any limits. This certainly promises to be a fun week!
